

Ambulatory Hyperemesis Service

Early Pregnancy & Gynaecology Services

Hyperemesis Gravidarum

Do you have a diagnosis of Hyperemesis Gravidarum (severe nausea or vomiting) in early pregnancy? Are you under 14 weeks' gestation?

We can help...

Please make use of our ambulatory Hyperemesis Gravidarum Service, which is open to patients from both Epsom and St Helier Hospitals.

To book an appointment, please call 07425 692397, Monday to Friday, between 8am to 10am, to schedule a same day appointment at St Helier Hospital.

Here you will be treated with intravenous fluids and anti-sickness medication, and the treatment appointment will usually last 4 hours in the afternoon.

Future Visits

This service can be used as many times as required, and does not require you to visit the Emergency Department, or to be an inpatient overnight.

Contact us

We are contactable by telephone, on Monday to Friday, 8am to 10am and are located on the Ground floor, E block, M2 ward, St Helier Hospital.

Phone: 07425 692397
